

HIRE YOUR CHAMBER!

That sounds strange, doesn't it? All these years you have been asked to "join" your Chamber, but each member does a lot more than just join when he pays for his membership.

Your Chamber does many things for the business and professional communities and general public which they might not be able to do alone. Your Chamber provides services and benefits that completely overshadow your costs – that is, your membership investment – when you hire the Chamber.

You hire the Chamber:

- *As a watch-dog to protect your interest in local, state and national legislation that may affect your business and community.*
- *To provide a medium through which people can take affective action for the progress of the community.*
- *To work for more and better job opportunities for the people who patronize your business.*
- *To promote a good public image of your community for business and industry.*

In all these functions the Chamber of Commerce is serving as a department – a partner – of every business and every professional person in the area.

Now, doesn't that phrase "hire your Chamber" sound logical? When you write your check for your membership, think of it in these terms. You are hiring your Chamber, its staff and services, as a valuable part of your business or profession.

Your investment is deductible as a "necessary item of business expense". It is not a contribution or a gift you're making....it's an investment in your business and your community!

Chamber Membership doesn't Cost it Pays!

Why Should I Be a Member of the Duncanville Chamber of Commerce?

Because I have a business at stake in the community which can be best safeguarded by working with others through the Chamber of Commerce to protect and advance all businesses.

Because my support is “plowed back” to yield many benefits in business growth, increased payroll, health, safety, legislation, business protection and community advancement.

Because the Chamber of Commerce can’t represent our community well or carry out its broad program of work to promote business and community prosperity through economic, civic and educational programs without personal service and financial support.

Because through the Chamber of Commerce I can discharge my obligations to this community in which I live and earn my living. I realize that every person owes a debt to the community that cannot be paid in taxes – a debt of personal service.

Because an active membership in my Chamber of Commerce carries with it a sense of accomplishment and inner satisfaction from the knowledge that I am doing my share of an important job.

Although everyone in the community benefits from the work of the Chamber of Commerce, I can accept those benefits with a sense of pride ONLY if I have had a part in bringing them about.
