

HIRE YOUR CHAMBER!

That sounds strange, doesn't it? All these years you have been asked to "join" your Chamber, but each member does a lot more than just join when he pays for his/her membership.

Your Chamber does many things for the business and professional communities and general public which they might not be able to do alone. Your Chamber provides services and benefits that completely overshadow your costs – that is, your membership investment – when you hire the Chamber.

You hire the Chamber:

- *As a partner to protect your interest in local, state and national legislation that may affect your business and community.*
- *To provide a medium through which people can take affective action for the progress of the community.*
- *To work for more and better job opportunities for the people who patronize your business.*
- *To promote a good public image of your community for business and industry.*

In all these functions the Chamber of Commerce is serving as a department – a partner – of every business and every professional person in the area.

Now, doesn't that phrase "hire your Chamber" sound logical? When you write your check for your membership, think of it in these terms. You are hiring your Chamber, its staff and services, as a valuable part of your business or profession.

Your investment is deductible as a "necessary item of business expense". It is not a contribution or a gift you're making....it's an investment in your business and your community!

Chamber Membership Doesn't Cost it Pays!
